Surplus Sales of Nebraska has a nice selection of non inductive resistors,
Very pricy but they have quite a selection.
I would also send an email to Fair Radio and see if they can dig one out.

If anyone has one of these could they please contact me as I have some questions about one of these I just picked up. These are in the "gray area" of boat anchorland; made in the late 60's by Galaxy (formerly WRL) and are a .5-30 mhz Wadley Loop synthesized receiver. At least the solid state devices are in sockets! I am curious about how stiff the tuning should be and have a question about synthesizer lock. It is an interesting receiver if anyone gets a chance to acquire one.

Thanks and 73,
Rodger WQ9E

Hi. What is a "sarah receiver"? Is it part of some type of IFF or RADAR system? I didn't manage to find anything on the internet about it.

Want to buy:

a-WW II military surplus MD-7/ARC-5 external plate
modulator for "command" transmitters.

Must be in good condition with all tubes and prefer
with dynamotor.

The only modification permitted is rewiring of the
heaters for 12.6 volts.

Please state asking price and condition.

b-Boatanchor communications receiver. Old is BOLD, new
is phew!! Hi!

Among the favorites:

- 1-Collins 75A-4 with late S/N over 4000.
- 2-Hallicrafter's SX-115.
- 3-TMC GPR-90
- 4-R-390A
- 5-Navy RBC with 115 VAC supply.

Tel: (478)741-1710 in Macon, GA

73,

Meyer Gottesman, W6GIV

Roger...

I have a Galaxy R-530, with matching speaker and factory manual. Contact me "off-list" for more info.

I hammered it down @ radio collector's auction Sat. Price ran up
because of plainly apparrent magic(al) eye.

Thing looks for all the world like manufactured by (mcmurdlo) Silver.
Or maybe Marconi. Black enamel w. shiny-metal legends. About 10"w x
6"h x 6"d.

Anyone ever see one? Know buyer & might catch it b4 dumpster. It's
trash day monday & bet magic(al) eye already excised

Marty

Hi,

I got a PRC-104 a while back and am ready to part with my PRC-74B. I got it several years ago complete in the box with all the accessories=20 (antennas, bucket, mic, key, ect) and the accessory bag. It is still complete with the original operators manual and in excellent condition. It has one battery box which has 12 AHrs worth (4-3AH cells) of jell-cells and another new battery box still in the box unopened. I also have the AC Power supply/Charger. It does work and has been on the air. I am asking \$900 for the whole package. I prefer pickup as the Power supply/charger is heavy. Otherwise if you would like it shipped, the buyer needs to cover shipping from a professional shipping company. I live in the SF bay area and make trips to Oakhurst (east of Fresno) every few weeks and would be happy to meet somewhere along the way.

Let me know if there is any interest.

Y'all,

I've received several e-mails from Oscar Lessard, N1QXL, asking for help getting his V44 (Knight Kit vfo) going with his qrp transmitter. He also wanted to know how to find the vfo frequency in his receiver. My e-mail coaching doesn't seem to have done the trick. Oscar is 84, has some heart trouble, and lives in Hookset, NH. He said that there are no other hams in town. His e-mail is OSCSARD@aol.com, and he goes by "Bud."

Would anyone be close enough to go over and give him some help?

Thanks,

Jim, W8KGI

Gang-

Please accept this periodic posting as it is intended:
A suggestion that will help everyone on the list...

If there is a problem with your email, i.e., the list suddenly stops coming to you, or if you have problems with someone else's mail, PLEASE address any questions to, and seek help from:

listtown@nanniandjack.com

There is really no one on the list who can help you with a problem, and if I don't happen to see your post, nothing will happen, except you may irritate the other list members... needlessly.

This is *especially* true of the "XXXX YYYY your mail is bouncing, please send me a good address"

If your mail to this person is bouncing, in all likelihood, either you have the address a bit wrong, or s/he isn't receiving mail from ANYWHERE *especially* not from the list, which is delivered as "Bulk!"

PLEASE treat the list as a symposium.

In such an environment, with many folks attending who have paid to be here, it is unlikely you would take up the symposium's resources to solve an individual problem with your seating...

So, if you encounter a problem, PLEASE remember to send your questions to me, the one person who can help, at:

listtown@nanniandjack.com

Thanks for your attention

--
